NOTE 1 Summary of Significant Accounting Policies and Going Concern

Accounting Practices

The financial statements of National Security Life and Annuity Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the New York Department of Financial Services.

The New York Department of Financial Services recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the New York Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP), has been adopted as a component of prescribed or permitted practices by the state of New York. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, specifically, the methodology used within the Company's asset adequacy reserve calculation. The asset adequacy reserve as determined by management was in accordance with VM21 (Valuation Manual 21 - Requirements for Principle-Based Reserves for Variable Annuities), NAIC SAP No. 51R (Life Contracts), and A-820 (Appendix A-820 Minimum Life and Annuity Reserve Standards) and was considered sufficient by management. Management acknowledges that under A-822 (Asset Adequacy Analysis Requirements), management may establish an additional reserve (above the VM21/NYreg213 aggregate reserve) if management determines that such a reserve is needed as a result of the asset adequacy analysis. No additional reserve was considered necessary per management's calculations. The additional asset adequacy reserve held by the Company, beginning with the June 30, 2017 financial statements, was made to comply with the Department's request for the Company adequacy reserve held by the Company, beginning with the June 30, 2017 financial statements, was made to comply with the Department's request for the Company to be held to a higher threshold under New York's Insurance Regulation No. 126, which resulted in the Company refining its methodology used to determine gross reserves, the reinsurance reserve credit, and associated reinsurance collateral for the variable annuities with living benefits so that the calculation would be acceptable to the Department under the higher threshold. This prescribed accounting practice resulted in recording an additional net asset adequacy reserve of \$14,000,000 and

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

- Accounting Policy
 (2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method Bonds not backed by other loans are stated at amortized cost using the modified scientific method.
 - (6) Basis for Loan-Backed Securities and Adjustment Methodology Loan-backed securities are stated at amortized cost. The retrospective adjutment methodology is used for asset-backed, CMO, and Mortgaged-backed securities.

Going Concern

After evaluating the entity's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the entity's ability to continue as a going concern as of the date of the filling of this statement.

NOTE 5 Investments

- D. Loan-Backed Securities
 - (1) Description of Sources Used to Determine Prepayment Assumptions

Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained from broker dealer survery values or internal estimates.

(2) Securities with Recognized Other-Than-Temporary Impairment

The Company had no other-than-temporary impairments on loan-backed securities due to the intent to sell security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

- (3) Recognized OTTI Securities NONE
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a) The aggregate amount of unrealized losses:

Less than 12 Months
 12 Months or Longer

 16 The aggregate related fair value of securities with unrealized losses:

 1. Less than 12 Months
 \$ 5,477,602

 2. 12 Months or Longer
 \$ 50,064

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

Cash flow modeling was performed on all of these securities using current and expected market based assumptions which showed that the investor will receive cash flow the percent of value of which is equal to the adjusted statement value. Therefore, any impairment is considered not other than temporary.

Other financial instruments are periodically measured at fair value, such as when impaired, or for certain bonds and preferred stock when carried at the lower of cost or

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. The market approach utilizes prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses discounted cash flows to determine fair value. When applying either approach, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs reflect the assumptions market participants would use in valuing a financial instrument based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's estimates about the assumptions market participants would use in valuing financial assets and financial liabilities based on the best information available in circumstances.

The Company is required to categorize its assets and liabilities that are carried at estimated fair value on the statutory statements of admitted assets, liabilities, and capital and surplus into a three level hierarchy based on the priority of the inputs to the valuation technique in accordance with SSAP No. 100, Fair Value Measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure estimated fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

- Level 1 Fair value is based on unadjusted quoted prices for identical assets and liabilities in an active market at the measurement date. The types of assets and liabilities utilizing Level 1 valuations generally include cash and short-term investments, separate account assets and exchange traded derivatives.
- Level 2 Fair value is based on significant inputs, other than quoted prices included in Level 1 that are observable in active markets or that are derived principally from or corroborated by observable market data through correlation or other means for identical or similar assets and liabilities. The types of assets and liabilities utilizing Level 2 valuations generally include U.S. government agency securities, municipal bonds, foreign government debt, certain corporate debt, asset-backed, mortgage-backed, and private placement securities, derivatives, common stocks, securities lending reinvested collateral and cash equivalent securities.
- Level 3 Fair value is based on unobservable inputs for the asset or liability for which there is little or no market activity at the measurement date. Unobservable inputs used in the valuation reflect management's best estimate about the assumptions market participants would use to price the asset or liability. The types of assets and liabilities utilizing Level 3 valuations generally include certain corporate debt, asset-backed or mortgage-backed securities, and derivative securities.

Acquisition of Ohio National Mutual Holdings, Inc. ("ONMH")

On March 22, 2021, the Board of ONMH unanimously approved an agreement to enter into a strategic transaction ("Transaction") with Constellation Insurance LP via ONLH Holdings LP ("Constellation") whereby Constellation will acquire ONMH. The agreement was signed on March 22, 2021. Constellation, an insurance holding company, is back by Caisse de dépôt et placement du Québec ("CDPQ") and Ontario Teachers' Pension Plan Board ("Ontario Teachers"), two of the world's largest, premier, long-term institutional investors.

ONMH entered into the Transaction to strengthen its financial position, enhance its market position, and enable it to become a stronger, more responsive and innovative financial services company. Constellation will build off ONMH's strengths and infrastructure to grow its insurance business going forward.

The Transaction will be structured as a sponsored demutualization, which means ONMH will convert to a stock company and will be indirectly owned by Constellation upon closing of the transaction. The conversion required a vote by eligible members as well as regulatory review and approval. Eligible members will be compensated, in the aggregate of \$500,000,000, for the extinguishment of their membership interests with additional policy benefits, or cash, as applicable. In addition to member compensation, Constellation and its investors are providing a commitment to infuse an additional \$500,000,000 of capital evenly over a four-year period beginning one year after the closing of the Transaction, further strengthening Ohio National's capital position and its ability to fulfill its obligations, as well as to invest in the future of the business.

On March 11, 2022, the Members of ONMH voted to approve the Transaction. The Ohio Department of Insurance conducted a public hearing on March 18, 2022. ONMH received an order approving the Transaction and all other regulatory approvals necessary to close the Transaction. ONMH closed the Transaction on March 31, 2022 and is now a stock company wholly owned by Constellation. In connection with the Transaction, ONMH changed its name and is now Ohio National Holdings, Inc.

NOTE 22 Events Subsequent

Effective November 2022, the following corporate name changes will occur: Ohio National Holdings, Inc. (ONHI) will change its name to Constellation Insurance Holdings, Inc. (CIHI) and Ohio National Financial Services, Inc. (ONFS) will change its name to Constellation Insurance, Inc. (CNII).
